Dimensions:

All components of SNOC luminaires are made from aluminum alloy A-356 or A-413 including less than 0.2% copper and resistant to oxidation.

All plain and antique finishes are made from outdoor UV resistant polyester or polyurethane powder coatings.

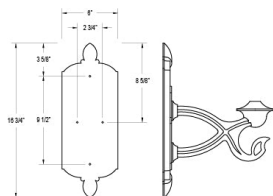

Lifetime warranty on aluminum components and LED plates. (SNOC guarantees the availability of all aluminum parts for 20 years.)

5-year warranty on finishes against chipping and discoloration, also on converters for LED lighting.

2-year warranty on transformers for landscape lighting and timers, against manufacturing defects on the ceramics of our address plaques.

All SNOC luminaires are certified by Intertek to applicable CSA and UL standards.
